

## New Features and Enhancements for 2006-07

- **Master Schedule** - The new Master Schedule database supports a variety of new features, eases schedule maintenance and helps build a stronger athletic program. For “Complete Package” subscribers, team members in one sport can add themselves to gate lists for available events in other sports and recruiting coordinators can reserve spots for visiting prospective students at any available event. Availability can be controlled for the entire seasonal or on a game-by-game basis.
- **Control Panel Options** - The Control Panel has been redesigned. “Season Settings” has replaced “Setup Players” and includes new options and control functions.
- **Schedule Setup** - New interface features new options and control functions. Master schedule is updated automatically. Additional “Special Rules” allow greater control of schedule entries. Improved data-integrity features prevent accidentally deleting ticketed events.
- **Delegated Administration** - While maintaining centralized control, the system now supports sub-administrators, who can be designated with control over one or more individual teams.
- **Additional Tickets** - “Complete Package” subscribers can allocate additional tickets for team members in other sports to attend athletic events on campus.
- **Record Archive** - Prior year data is now available through the online archive.
- **Watch List** - Prior year watch list entries may now be imported.
- **Enhanced Reporting** - Enhanced logging allows improved tracking and monitoring.
- **Visit Manager** - Enhanced integrated ticketing module to:
  - Schedule and monitor official and unofficial visits and build pass lists for prospective student-athletes and their family and friends in support of compliance with NCAA By-laws 13.6 and 13.7 for on-campus visits.
  - Provide a secure interface for on-the-road access for busy coaches and coordinators to schedule visits and review the visit history of prospective student-athletes.
  - Assign student host(s) to a prospective student-athlete on campus a visit.
  - Generate on-demand gate-list with up-to-the minute tracking of the number of seats requested.
  - Track academic requirements and status to determine eligibility for official visits.
  - Create a written record of paid visits in support of compliance with NCAA By-law 13.6.2.6.4.
- **Improved Navigation** - New web links allow shortcut access to pertinent information.
- **System Performance and Reliability** - Numerous performance improvements for greater system security and stability.
