

## New Features and Enhancements for 2008-09

- ◆ **Live Control Panel** - Up to the minute system status is now available at a glance. Current activity is updated automatically without refreshing the browser. Upcoming events are displayed. Link directly to in-season teams and upcoming events summaries.
- ◆ **New Status Reports** - Recent Activity report shows last 100 sessions. Current Sessions Report show all activity in the past half hour and current activity. Session log reports allows expanded review of session activity from the current session report.
- ◆ **Enhanced Team Page** - New condensed layout provides easier access to the most often used features. All season and schedule options, as well as the Family Entry Deadline, have be combined on a single Settings page for each team/season.
- ◆ **Event Summary Page** - Enhanced Gate List interface gives complete snapshot of game information. New table compiles up-to-the-minute summary of the number of eligible team members, suspensions, total allocations, currently requested tickets, and other information.
- ◆ **Asynchronous Data Entry** - Background processing of adds allows nearly continuous entry of new team members and schedules. Default values for start time and end time allow setting up schedules and rosters in a fraction of the time.
- ◆ **FAQ** - List of *Frequently Asked Questions* provides answers to most questions asked by student-athletes and Family Captains. Interactive form facilitates feedback to identify new questions for future updates.
- ◆ **Blind Ticket Exchange** - New facility helps team members share tickets with other team members' family and classmates. A prioritized continuous lottery provides fair and efficient ticket sharing. Email notifications will update status daily.
- ◆ **Scheduled Status Mailings** - Email will be sent to team members at scheduled times reminding of deadlines and confirming Gate List changes.
- ◆ **Improved Navigation** - New web links allow shortcut access to pertinent information. Control Panel links are updated to provide direct links to in-season sports and current events.
- ◆ **System Performance and Reliability** - Screen is cleared when sessions time out. Logging and session management facilities have been enhanced to provide realtime access to system information. Numerous performance improvements have been made for greater system security and stability.
